IMPORTANT REMINDER TO ALL STAFF

RE: PERSONAL SAFETY IN DEPOT YARD AREAS AND WAREHOUSES

The safety of everyone working in Depot Yard areas and inside our warehouses is a top priority. Due to the shared working environment between trucks, forklifts and pedestrians, it is essential that all staff follow the established safety procedures at all times.

Following a serious accident on site, we would remind all staff working in these areas of the following procedures:

Forklift Operators

- Operate forklifts at a safe and controlled speed at all times.
- Always be aware of pedestrians and HGV vehicle movements in the yard and warehouse.
- Do not operate forklifts within 6ft of pedestrians.
- Use horns when approaching corners, doorways, or blind spots.
- Ensure clear visibility; if the load restricts your view, travel in reverse or request assistance.

Pedestrians

- Maintain awareness of moving forklifts and HGV vehicles at all times.
- Wear high-visibility clothing while in the yard or warehouse area.
- Always use marked pedestrian walkways where provided.
- Stand behind the safety barriers or remain in your vehicle.
- Keep a safe distance of at least 6ft from any forklift truck.
- Do not walk behind reversing vehicles or forklifts.

The following notice is displayed prominently in all loading / unloading areas throughout the site:

DRIVER SAFETY
DURING LOADING/UNLOADING

YOU MUST EITHER:
REMAIN IN YOUR CAB OR
STAND BEHIND THE SAFETY BARRIER

IN ALL INSTANCES,
KEEP A SAFE DISTANCE (6FT)
FROM ANY FORK LIFT TRUCK

In line with the safety guidelines detailed, during the loading/ unloading process, drivers must either remain in their cab or stand behind the nearest safety barrier.

Forklift Truck drivers have been given the authority to politely request that pedestrians not complying with this requirement relocate to a safe area.

The details of any refusals to adhere to this requirement should be reported to our Health & Safety Manager Mark Ferneyhough or myself.

We would appreciate your full co-operation in ensuring that these instructions are followed at all times. In view of the potentially serious consequences of these instructions not being adhered to, we will fully investigate and act upon any instances of persistent non-compliance. If you are unsure of the correct procedures or require further clarification, please contact myself or Mark Ferneyhough without delay. By working together and remaining vigilant, we can maintain a safe working environment for everyone on site.

Claire Bassett
Head of HR and Compliance
